

eric powell

DESIGNER AND DEVELOPER

OBJECTIVE

As a game developer, I understand how mechanics can make or break the gameplay experience. As a designer and web developer, I know what a clean, responsive interface can do for your business. I enjoy technical aspects of design & development and polishing critical details that others may overlook. I am fully confident in proving what I say I can do. Contact me and let's work together.

EDUCATION

University of Richmond | Richmond, Virginia | 2019

Currently Enrolled in the Coding Bootcamp managed by Trilogy Education
Graduating in October, 2019

- Studying full-stack development, API integration and databasing
- Studying command line interface and git version-control on GitHub

Longwood University | Farmville, Virginia | 2014 -2018

Majored in Graphic Design & Animation with a Bachelors of Fine Arts
Graduated on May 19th, 2018

- Studied design elements, principles, visual problem solving, branding & production
- Studied 3D modeling, rigging, animation, texturing & rendering
- Created a fully-playable game in Unity called "TILT" for my senior project
- Member of LAS (Lancer Animation Studios) & the 3D Modeling Club

WORK EXPERIENCE
